Application/Control Number: 10/747,756 Page 2

Art Unit: 3662

1. Claims 2-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

On lines 4-5 of independent claim 2, the phrase "transmitting an impulse radio signal containing sensor related information" is unclear in context in that it appears to be misdescriptive. If the transmitted signal is a returned-wave sensor signal, then it can not contain "sensor related information" until it is reflected from a target. The same problem occurs on lines 4-5 of independent claim 11 and on line 4 of independent claim 30.

Dependent claims 3-10, 12-29, and 31-38 are unclear in that they depend from unclear independent claims 2, 11, and 30.

- 2. Claims 2, 11, and 30 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
- 3. Claims 3-10, 12-29, and 31-38 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
- 4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The examiner-cited prior art cited in this office action is of general interest for showing the state of the related prior art. This prior art was cited in the parent application of the instant application.

Art Unit: 3662

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernarr E. Gregory whose telephone number is (703) 306-5765. The examiner can normally be reached on weekdays from 7:30 AM to 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas H. Tarcza, can be reached on (703) 306-4171. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
